

NCE-06 SOLAR POWER PACK

RANGE OF EXPERIMENTS TO BE CARRIED OUT:

1. To Study the Solar Power Pack

TECHNICAL DESCRIPTION :

This product is integrated with a solar charge controller which converts solar power to electricity within minutes. Being a solar operated device, it comes equipped with a dual charging mode. As it uses solar charging against the usual mains, it delivers 98% efficiency while keeping it low on your pocket. The electricity management of this device is such that even in power cuts it ensures longer backups by absorbing power both from the storage and the solar pane
